

# Boiler wiring got you worried?

The new RB-24 Universal Wire Harness Kits make installation easier than ever before.

The new Universal Wire Harness Kits\* for RB-24 GuardDog® low water cut-offs allow you to quickly and easily install plug-in wiring without cutting into the OEM's wiring harness. Simply choose the kit for your standard gas boiler application, either with control modules or with vent dampers. We make your job easier so you have fewer chances for error and you save money. See your local wholesaler or check out our website for more information.

**Don't take chances. Get a GuardDog.**
